LETTER FROM THE BOARD

Pursuant to Rule 13.73 of the Listing Rules, the Company would like to update the Shareholders of the subsequent development of the additional fund raising and the effect of shareholding structure of the Company, and to inform the Shareholders that the date of the SGM originally scheduled to be held on 1 June 2017 (Thursday) will be postponed to 16 June 2017 (Friday) (being a date falling not less than 10 business days after the issue of this supplemental circular) while the venue and time remain unchanged.

The purpose of this supplemental circular is to provide you with updated information of the additional fund raising of the Company and the effect of shareholding structure of the Company, and to give you the supplemental notice of the Postponed SGM and the Supplemental Proxy Form.

This supplemental circular should be read together with the Circular which contains, among other matters, the Share Subscription and the granting of the Specific Mandate.

UPDATES ON ADDITIONAL FUND RAISING OF THE COMPANY

The Board refers to the information regarding the expected funding needs for the next 12 months and fund raising opportunities of the Company as set out on page 10 of the Circular, and wish to update the Shareholders of the subsequent development of the additional fund raising of the Company relating to the Placing.

Subsequent to the Latest Practicable Date, the Company and the Placing Agent entered into the Placing Agreement on 26 May 2017 pursuant to which the Company conditionally agreed to place, through the Placing Agent, on a best efforts basis, the Convertible Bonds with any aggregate principal amount of up to HK\$620,000,000 to not less than six Places at the initial Conversion Price of HK\$0.31 per Share. The gross proceeds to be raised from the Placing are estimated to be not less than HK\$620,000,000. The net proceeds (after deducting estimated expenses incurred) to be raised from the Placing are estimated to be not less than HK\$614.6 million. The net proceeds from the Placing will be utilized for general working capital of the Group, in particular, to further strengthen the Group's financial services business by providing more funding for its margin financing and underwriting businesses in anticipation of the recent market development and opportunities and for its business expansion. As the Placing is conditional upon fulfillment of certain conditions, the Company could not assure that the Placing could be materialised.

The Company's expected funding needs for the next 12 months based on the Board's latest estimates, the key assumptions or factors used to prepare such forecast are as follows:

1. The Company's expected funding needs for the next 12 months will be to maintain the working capital at a level that will ensure sufficient cash for running the operating activities smoothly. After the Share Subscription and the Placing to be completed in July 2017, about HK\$230 million relating to the Share Subscription and about HK\$614.6 million relating to the Placing shall be available to the Company, which shall be principally used as to around HK\$430 million for margin financing business; and as to the remaining HK\$414.6 million for general working capital, in particular, to expand and further strengthen the Group's financial services business by providing more funding for its underwriting businesses.

LETTER FROM THE BOARD

2. The margin book level shall gradually increase from currently HK\$250 million level to HK\$785 million level at July 2018 with an increase of HK\$535 million.
3. Assume the market sentiment shall remain unchanged without abnormal fluctuation, the average HK securities daily trading volume shall be around HK\$70 billion in recent months.
4. The securities market share of the Company will be increased from about 0.10% (refer to the market share level of March 2017) before the Share Subscription to 0.15% at July 2018.
5. The gross commission rate is at about 15 basis points and rebate ratio at about 50% shall be maintained.
6. The commodities broking business shall has moderate growth comes along with the growth in securities business after the Share Subscription Completion. Monthly brokerage income shall grow gradually from existing HK\$2 million – HK\$3 million level to HK\$5 million – HK\$6 million level at July 2018 accordingly. The average rebate ratio is kept at 60% throughout the period.
7. The other businesses of the Company shall run as at historical level.
8. Monthly expenditures are based on the average actual amounts incurred during the first 3 months of 2017. Due to the continuing conservative cost control policy, the overall costs structure of the Company shall be kept in existing level.

The net proceeds from the Share Subscription and the Placing are expected to satisfy the Company's anticipated funding needs for the next 12 months barring any unforeseen circumstances. However, due to the nature of financial businesses, a larger capital base and more funding may generate more revenue and profits for the Group and is beneficial to the development and expansion of financial businesses if additional funding can be obtained. The Company is from time to time in negotiation with potential investors for further fund raising opportunities to support such funding needs. Nevertheless, no definitive terms have been reached nor legally binding agreement has been executed between the Company and any potential investors as at the Latest Practicable Date. As at the Latest Practicable Date, no other fund raising activities of the Company are being contemplated.
